2 Build 11940

2.1 New functionalities

2.1.1 Sign in with an office 365. Microsoft Azure AD account

In this release, it is now possible to sign in with an office 365 / Microsoft Azure AD account instead of a Madaster account.

There is a possibility to transfer the rights of your local account to your office365 / Microsoft Azure Ad Account

2.1.2 API version 4

In this release, API version 4.0 has been added (https://api.madaster.com/?urls.primaryName=V4.0) and provides full support for the latest fields on materials and products (including LCA and detachability).

With this release, the API calls in version 3.0 related to materials and products have been marked as *obsolete*, these calls are supported until June 30, 2022. After this date, these calls will be removed and no longer work.

2.2 Bug fixes

The following bugs have been resolved:

- Environmental preview is missing when copying or archiving a building.
- Material Passport Pdf, Product information is not readable.
